that most anything that was introduced would be referred to committee for action.

SENATOR MAHONEY: Senator Fowler your resolution was approved was there a particular resolution that was or rather that you were interested in or do you have a problem?

SENATOR FOWLER: I guess I do not know the four that were not approved.

SENATOR MAHONEY: If you would look you would see that yours was approved there. The four that were not approved were Senator Kelly's resolution on the Metropolitan Schools. A resolution by Senator Stromer on public power and kind of an all composing type of resolution that we didn't think was necessary. We had studied that area time and time again for the last 10 years and the third resolution Senator Goodrich give me a hand here, we turned down here was for investigations of insurance companies, and a fourth resolution was Senator Stull, was Senator Richendifer's post secondary schools. Fourteen to from sixteen to fourteen. We thought that this had been discussed and there would have been great complications so those are the only four that were turned out.

PRESIDENT: Senator Fowler has the floor.

SENATOR FOWLER: I guess that I would like to make a motion that those four be approved for study as well. I'm concerned about the two on the education matters that were rejected.

PRESIDENT: Senator Mahoney.

SENATOR MAHONEY: Mr. President, I would just like to speak that if we waive these and study them and took them as they came one by one and we felt that we were quite liberal with all of these resolutions but in these four areas that we would be tied down into an area in which the legislature itself would be going on forever and we ask your indulgence that you turn down Senator Fowler's request that these four be approved. I so move.

PRESIDENT: Senator Fowler do you want to indicate to us which one, you will have to give us something in writing if you don't mind. Apparently there are some people that want to speak on this. Is it the Chair's understanding that you are adding to the number of resolutions for interim study? The Chair is at a little disadvantage that I don't have it in front of me, I'm sorry.

SENATOR FOWLER: Yes, I guess that I would like the four resolutions, I would like to add to the motion for the approval of the four resolutions that were mentioned by Senator Mahoney. The one on insurance, two on education and I can't recall the fourth. That those be added to the list for study.

PRESIDENT: Alright, We have....our problem up here Senator Fowler, may I say again, that the Clerk and I the Chair, that
